SUMMARY - I keen at observing details and good at learning anything as quick as possible. Dedicated and detail-oriented React.js developer with a strong foundation in building secure and scalable applications. Proficient in developing interactive front-end applications. Seeking a challenging position to leverage expertise in front-end development to contribute to innovative projects.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), Typescript, HTML5, CSS3, Node.js, Express.js, MongoDB Compass.
Frontend: Expertise in Next.js, React.js, Vite.js, state management Redux, Zustand, and modern front-end tools.
Backend: Expertise in Node.js, Express.js, MongoDB Compass, and building RESTful APIs with secure authentication and data management.
Tools & Technologies: Socket.io, QuickBlox, Git/GitHub, RESTful APIs, and development environments.

PROFESSIONAL EXPERIENCE

Softqubes Technology | Ahmedabad, Gujarat   **Jr.React.js Developer**
                                                                                             Apr 2022 – Present

- Built scalable front-end applications using React.js with TypeScript for enhanced type safety and maintainability.
- Developed high-performance web applications utilizing Next.js for server-side rendering and static site generation.
- Implemented state management solutions using Zustand & Redux Toolkit to optimize application performance.
- Collaborated with designers and backend developers to create seamless user experiences.
- Conducted code reviews and optimized React.js components for reusability and scalability.

PROJECTS

Inntelligent-CRM
- The Intelligent CRM is utilized by a large hotel giant for setting competitive prices.
- The Admin Portal is the main control hub for the hotel system, giving admins access to manage CRM features.
- The Client Portal lets authorized users easily access and interact with key CRM features and information.
- The Crome Extension is the interface through which authorized users interact with the Intelligent CRM's Quick features.

Exito HRMS — Stores Management
- Exito HRMS is a Store based HR Management System. Designed for ease of use in a store environment, and activities.
- Employee Punch In & Out Records, Payroll Management, Employee Data Management, Leave Management, Shift Scheduling, Reports and Analytics

HTEL — Machines Spare parts Services & Order Management
- To streamline the procurement and maintenance of machine parts, enhancing operational efficiency.
- Spare Parts Inventory Management, Order Placement & Tracking, Service Request Management, Supplier Directory, Order History & Reporting, Notifications & Alerts.

OMS — Office Management System
- OMS is a comprehensive system designed to streamline and enhance office management processes.
- Track and Manage (employee information), System for (organizing, storing, and retrieving documents efficiently).

Quantum — Quantum Data Analytics
- Project leveraging quantum computing technologies to process and analyze large datasets with enhanced speed and precision
- Quantum Data Processing, Predictive Analytics, Data Visualization, Optimization Algorithms, Scalable Solutions.

LEADERSHIP EXPERIENCE

- Successfully managed a team of 7 members to deliver multiple high-quality projects on time.
- Coordinated with clients to gather requirements, provide updates, and ensure satisfaction.
- Fostered a collaborative team environment to enhance productivity and innovation.

EDUCATION, CERTIFICATIONS & INTERESTS

Master of Computer Application Science in AI & ML Singhania University, Jhunjhunu Rajasthan   **Year of Passing: 2024**
- AI & ML in Python.
- Front-End Development with React.
- Cyber-Security

INTERESTS
- I like to keen on observing the details of everything and excel at learning, reading, playing games, making new friends, and movies.
